Some are concerned that its wide spread and the emergence and institutionalisation of new Englishes will lead to a language fragmentation that could ultimately result in mutual unintelligibility. The question of who holds authority over English today is causing heated discussions. Teaching practices for English as a foreign language are yet another contentious subject. For the most part, English teaching is still oriented towards British or North American varieties, and a learner's proficiency is measured in relation to those norms. Some, however, demand that English teaching practices take into account that usage situations and requirements for...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
