He vividly shares his lifelong experiences, spiced with humor and even sarcasm but, without compromising his professional explanations of today's major world economic problems. The basic aim of this book is to explain two dimensions of economics. The first concerns the separate worlds of Money and Product, as they circulate continuously in opposite directions. The second concerns the dilemma of how to cope with the problem presented in the metaphor Economics is the science of a short blanket in a cold room: if you cover your feet your shoulders will be cold and if you cover your shoulders your feet will be cold.
